

BUDAPESTI UNIVERSITY OF TECHNOLOGY AND ECONOMICS

INSTITUTE OF MATHEMATICS

FACULTY OF MATHEMATICS

Linear Regression through Origin

Author:

Dyussenov Nuraly

Supervisor:

Dr. Jozsef Mala

Associate Professor, BME Fac. of Nat. Sci.

Budapest, October 5, 2023

M Ű E G Y E T E M 1 7 8 2

Contents

1	Introduction	1
2	Theoretical background	2
2.1	Statistics Basics	2
2.2	Simple Linear Regression	2
2.3	Simple Linear Regression with no intercept term	2
2.4	To add	2
3	Applications to Linear Regression through Origin	3
3.1	Something to add 1	3
3.2	Something to add 1	3
4	Theoretical results	4
4.1	A theoretical resilt	4
4.2	Towards some advanced topic	4
5	Programming simulations	5
6	Summary and closing words	6
A	Program Codes	8

1. Introduction

"Bla-bla-bla"

– XY

2. Theoretical background

2.1 Statistics Basics

2.2 Simple Linear Regression

2.3 Simple Linear Regression with no intercept term

2.4 To add

3. Applications to Linear Regression through Origin

3.1 Something to add 1

3.2 Something to add 1

4. Theoretical results

4.1 A theoretical result

4.2 Towards some advanced topic

5. Programming simulations

6. Summary and closing words

?<ch:closing>?
